(54) Title: AN OILY PROTECTIVE PIGMENT DISPERSION FOR PROTECTION AGAINST UV RADIATION, A PROCESS FOR PREPARING IT, AND A COSMETIC COMPOSITION

(57) Abstract: The present invention relates to an oily dispersion of pigments for protection against UV radiation comprising, in a single oily base, zinc oxide and titanium dioxide added in the form of a powder, wherein the two pigments are dispersed in a single oily dispersing vehicle and the dispersion further comprises a single emollient vehicle. The invention also relates to a process for preparing said oily pigment dispersion. The dispersion of the present invention is useful to be added to cosmetic compositions, bringing about a faster way of producing compositions having a high sunshine protection factor, with a lower cost and more safety for the end products.
